

Spitsbergen Explorer

07 JUL – 18 JUL 2019

11 NIGHTS / 12 DAYS

STARTS IN LONGYEARBYEN

AN IN DEPTH EXPLORATION OF SPITSBERGEN AND THE SVALBARD ARCHIPELAGO

The Norwegian territory of Svalbard and the islands that make up the archipelago offer a tremendous wildlife and birdlife experience, as well as a fascinating lesson in glaciology. The islands were first used as a whaling base in the 17th and 18th centuries and are now celebrated as a breeding ground for many seabirds, along with marine mammals and the elusive polar bear.

Our expedition vessel is perfectly suited for remote polar exploration. With her high ice classification, we are able to push further to the north along the edge of the ice pack. It is here we frequently encounter the icon of the Arctic – the polar bear – hunting for seals and other protein sources to sustain them through the Arctic summer.

Throughout our journey we enjoy a comprehensive series of presentations by polar experts, providing an excellent background to the expedition. Days are busy with shore excursions to places of historic interest, visits to wildlife colonies, viewing the exquisite native flora and soaking up the stunning landscapes. Short or long hikes on shore are another feature along with regular cruising in the zodiacs. Sea kayaking is another popular option. Our voyage focuses on the western and northern coast of Spitsbergen, and as far north as the permanent pack ice. This area has the highest concentration of wildlife and places of historic and scenic interest in the archipelago.

Expedition Highlights

- > The best place in the Arctic to see polar bears in their natural habitat
- > A 12-day expedition deep inside the Arctic Circle only 600 miles from The North Pole
- > Travel in the company of marine biologists, naturalists, historians and polar experts
- > Sail onboard the *Akademik Sergey Vavilov* and access Svalbard's most spectacular sites

ON THIS TRIP

-  Zodiac excursions
-  Onshore hiking options
-  Wildlife observation
-  Photographer-in-Residence
-  Sea kayaking available
-  Whale watching
-  Educational presentations
-  Active Cruising & Wellness

IMPORTANT VOYAGE LOGISTICS

This trip starts in Longyearbyen, the principal town in the Svalbard archipelago. Longyearbyen is easily accessed with several daily flights from Norway's stylish capital city - Oslo. Flights are also available from Tromsø in northern Norway.

We recommend you arrive in Longyearbyen at least one day prior to the scheduled voyage departure date. This gives you a buffer in the event of any unexpected travel delays between home and trip departure time. An airport transfer shuttle to your hotel is provided upon arrival.

At the conclusion of the trip a transfer to the airport for your onward flight is included, or to your local hotel if staying in Longyearbyen.

Full joining instructions are provided in your final travel documentation. If you have questions before this time, please ask us.

YOUR DAY-BY-DAY EXPEDITION ITINERARY

DAY 1 / LONGYEARBYEN, SVALBARD, (SUNDAY, 07 JULY 2019)

Embark your expedition ship, *Akademik Sergey Vavilov* in Longyearbyen and sail through Adventfjorden and into Isfjorden then out into the Greenland Sea. So begins your Arctic cruise, 24 hours of daylight and hopefully some great photographic opportunities and memories.

DAY 2 / BOURBONHAMNA

We arrive at Bourbonhamna, known for the beluga whales that transit the narrow sound. Head out in zodiacs for the first time in search of belugas. Adult belugas are pure white and the younger calves a mottled grey colour. It is estimated there are approximately five to ten thousand belugas in the Svalbard population. The beluga has no dorsal fin - a diagnostic feature of whale species that live in the high Arctic such as the narwhal and bowhead - and it has been postulated the lack of dorsal fin is an adaptation to living in waters that are frequently covered by ice. At Bourbonhamna we enjoy a hike to Ingebrigstenbukta stopping to view the old hunting cabin and other artefacts along with piles of beluga whalebones, a reminder of Svalbard's hunting past. It is also a great place to see reindeer.

DAYS 3 / STORFJORDEN

Coming around the most southerly point of Spitsbergen, we push into the broad expanse of Storfjorden. Exploring Dolerittneset near Kapp Lee, the lush vegetation of this region is remarkable given the latitude of 70° North. This area has a large scattering of reindeer antlers, however, it is the plethora of ancient whalebones that makes the excursion so memorable. Some 400 years ago, whales were hunted almost to extinction in the waters surrounding Svalbard. Now nature has turned the decaying old bones into items of beauty. Time and the elements have altered their original shape and sculpted them into works of art, covered in blankets of green moss and grasses, black and orange lichen, and framed with purple saxifrage, yellow cinquefoil and white sandwort flowers. They are fascinating photographic subjects. Now, even after death, the noble whale supports life by robustly protecting the delicate flora from the harsh winds and providing nutrients to ensure their survival.

DAY 4 / HORNSUND

Returning to the west coast, explore the glacier-filled bay leading into Hornsund. The entire archipelago of Svalbard is a lesson in glaciology and our on-board guides will explain the formation of this fantastic landscape during hikes and zodiac excursions. Hornsund is home to the Polish Polar research station and a good place to see reindeer and arctic foxes.

DAY 5 / 14TH JULY GLACIER AND KROSSFJORDEN

The rocky shores of Krossfjorden are home to numerous bird colonies and a range of species. The ship will anchor in a protected harbour, launch the zodiacs and cruise along the bird cliffs near the 14th July Glacier. Bearded and ringed seals are known to frequent the waters here and we watch out for them in the dark waters of the fjord. Lilliehook Glacier, at the northwestern head of Krossfjorden, is an incredible sight. The glacier face stretches just over four miles and has a height of around 80 metres - viewed from the zodiac cruise you come to appreciate the enormous scale of your surroundings. Large colonies of birds including kittiwakes and ivory gulls can be seen diving at the front of the glacier when chunks calve off stirring up the nutrients in the water. Polar bears can often be seen patrolling here because of the number of seals on ice.

DAY 6 / KROSSFJORDEN AND SMEERENBURGFJORDEN

Sailing out of Krossfjorden and Kongsfjorden, you may be fortunate enough to see the historic airship anchor pylon near the scientific community of Ny Ålesund. This remote outpost earned its place in aviation pioneering history as a starting point for North Pole aviation exploration. Notable pioneer aviators including Zeppelin, Amundsen, Ellsworth, Byrd and Nobile all passed through Ny Ålesund. Nearby, Smeerenburgfjorden has a four hundred year history of whaling and is a favorite spot as we round the northwestern tip of Spitsbergen. A wander along the beach looking at the blubber cookers, or an hour behind a tripod shooting landscapes on your camera might be on the schedule, all the while looking for wildlife that can appear anywhere in Svalbard.

DAY 7 / EXPLORATION OF THE SEA ICE

Continue north and east up into the ice, hoping to cross the 80° north parallel. Approaching the ice-edge the ship slows down and all hands are either on the bridge or out on the outer decks scanning for wildlife. Bearded seals, ringed seals and walrus may be found hauled-out on the edges of the ice. Harp seals swim in herds of 10 to 20 through the open water channels in the ice. A buttery coloured lump miles away on the ice metamorphosizes into a polar bear as we slowly work our way through the ice toward it. The Vavilov is perfectly designed for near silent approach and the captain takes great pride in bringing you in as close as possible to the wildlife without disturbing it for some great photographic opportunities.

DAY 8 / PHIPPSOYA

At 81° degrees north latitude, Phippsøya - one of the Seven Islands - is only 540 nautical miles from the North Pole. Because of its proximity to the permanent pack ice, Phippsøya offers the potential for great polar bear viewings. Be sure to get up to the bridge and take a picture of the ship's GPS showing this incredibly high polar latitude near the top of the world. Trivia: The archipelago of seven islands is the northernmost land in Svalbard. Named in 1780s by an English sailing party. The smallest and least significant island being named Nelsonøya, after the lowly midshipman, who was promoted over the years to the rank and title of Vice Admiral Horatio Lord Nelson.

DAY 9 / NORDAUSTLANDET AND HINLOPEN STRAIT

From the ice edge, turn south into the main strait separating Svalbard's two main islands: Spitsbergen and Nordaustlandet. In Hinlopen Strait, the bird cliffs at Alkefjellet are home to more than a hundred thousand breeding Brunnich's guillemots, as well as thousands of kittiwakes and black guillemots. The huge basalt cliffs and skies are thick with birds as they hurl themselves off the rockface.

Polar bears are common in the Hinlopen area and there are a few different walrus haul-outs. Nearby Murchison Fjord is a wonderful place to kayak or cruise as the ship navigates the waterways between the islands. There are some excellent hiking routes here up to high points with spectacular views and further opportunities to encounter Arctic wildlife.

DAY 10 / LEIFDEFJORDEN

Enter Leifdefjorden and slowly cruise towards the Monaco Glacier. This vast sweep of ice more than four miles wide provides a fabulous backdrop for a zodiac cruise. Ice caves and tumbling seracs are an impressive sight as are the thousands of black-legged kittiwakes feeding on the upwelling of rich nutrients found near the sub-glacial outflow. A morning of cruising in the ice is best followed by a hike on the tundra. Red phalaropes, purple sandpipers and vibrant tundra provide plenty of viewing and photography opportunities. The geology is fascinating and it is a great chance to see reindeer and Arctic foxes.

DAY 11 / ALKEHORNET

Alkehornet, at the mouth of Isfjord, offers breath-taking views and an incredible tundra walk. Arctic foxes can often be seen here, as well as reindeer. Towering above the site is a horn-shaped mount covered in guillemots and kittiwakes. This evening, celebrate the journey with a special dinner attended by the ship's Captain. It's a great time to reflect on a wonderful voyage in this wild and remote place.

DAY 12 / LONGYEARBYEN DISEMBARKATION (THURSDAY, 18 JULY 2019)

Arrive back into Longyearbyen this morning and disembark after breakfast. Transfer back into town with a chance to visit the museums and buy a few last-minute souvenirs before transferring to the airport for your return flights.

ABOUT OUR ITINERARY: Polar exploration can be unpredictable. Specific sites visited will depend on prevailing weather and ice conditions at the time of sailing. The above itinerary should be read as a 'guide only' and may change. The ship's Captain in conjunction with the Expedition Leader continually review the sailing plan throughout the voyage, making adjustments to the itinerary along the way to take advantage of optimal weather and ice conditions or to maximize our encounters with wildlife. Decades of experience spent exploring these waterways mean we have a large number of outstanding landing sites and zodiac cruising locations to consider, even when the weather conditions may not be ideal or when heavy ice may hinder our planned route. A flexible approach is something we encourage you to bring to the ship.

YOUR EXPEDITION INCLUDES:

- ✓ Comprehensive pre-voyage information package including details to help you prepare for your trip
- ✓ Transfers to the ship on embarkation day and from the ship to the airport or local hotel on disembarkation
- ✓ Shipboard accommodation in your selected cabin category with daily housekeeping. Cabins feature outside views with windows or portholes that open on each deck
- ✓ High quality, eco friendly, Canadian made natural amenities in every cabin
- ✓ All breakfasts, lunches and dinners on board throughout your voyage with daily afternoon tea
- ✓ 24-hour tea, coffee, hot chocolate in bar lounge plus in-cabin tea, coffee, hot chocolate replenished daily
- ✓ Experienced Expedition Leader and professional expedition team of marine biologists, naturalists, historians, adventure guides and photographers
- ✓ Daily off-ship excursions by zodiac boat breaking into small groups for shore landings
- ✓ Guided hikes and walks on shore of various durations for guests of all abilities
- ✓ Visits to wildlife colonies, historic sites, places of outstanding natural beauty and community visits
- ✓ Educational presentations and talks by polar experts in their field (ie. marine biologists, naturalists, historians etc). Onboard or on shore
- ✓ Resident photography guide available to assist all guests
- ✓ Access to computers in the multimedia lab for image downloads, file back up and management
- ✓ An emergency trained medical physician onboard every voyage
- ✓ Dedicated hospitality team including Hotel Manager, four chefs, professional bar staff and Adventure Concierge staff
- ✓ Onboard sauna, plunge pool, Jacuzzi and fitness centre including personal trainer and massage options (charge applies for massage and spa treatments)
- ✓ Sea Kayaking programme available (additional charge of \$695pp) – must be reserved at the time of booking your voyage and you must have some prior paddling experience
- ✓ Access to well stocked library full of polar reference books
- ✓ End of voyage video, photos and take home USB
- ✓ Port fees and all permits to access visited areas

The right gear for your trip – included ✓

When you travel with One Ocean Expeditions, you have the use of an expedition gear package free of charge. Containing around \$US900 worth of essential equipment, this kit includes a quality waterproof/windproof jacket and bib-pants plus insulated rubber boots designed for extended walking. We also include a set of binoculars and a Nordic trekking pole for use when on shore. A waterproof backpack completes your package. This kit saves you buying expensive clothing and equipment you may only ever use once. It also eliminates the need to carry such cumbersome gear to the ship (total weight around 8kg/17lbs).

The Expedition does not include:

- › Any international or local airfare unless otherwise specified in the voyage itinerary
- › Visa and passport expenses
- › Pre or post-cruise hotel accommodation unless otherwise specified in the itinerary (or pre-arranged)
- › Pre or post-cruise transfers unless otherwise specified in the itinerary (or pre-arranged)
- › Personal expenses on board such as alcoholic beverages, bar charges or laundry expenses
- › Telecommunication charges (ie. email, satellite phone)
- › Baggage, cancellation or medical travel insurance related expenses (comprehensive travel insurance is mandatory on all One Ocean Expeditions trips)
- › A voluntary gratuity at the end of the voyage for expedition staff and ship crew (suggested amount – \$US12-15 per day)

THE RIGHT SHIP = THE BEST EXPERIENCE

*Akademik Sergey Vavilov
(One Ocean Voyager)*

The *Akademik Sergey Vavilov* is the perfect ship for Arctic exploration. She is a very spacious expedition vessel, yet the ship accommodates just 92 passengers. This makes all the difference when we disembark for our shore landings and zodiac excursions. Our fleet of zodiacs enable everyone to get off the ship at the same time. We do not need to operate shuttles to and from the ship or run hurried shore landings. This is the reality of a visit to Spitsbergen on larger capacity vessels. Our ship features the highest ice classification of any passenger vessel navigating in Spitsbergen (Class 1A). This allows us to safely push into areas of broken sea ice along the edges of the Arctic pack ice, located to the north of the archipelago. This ice transition zone is a place we frequently encounter seals, seabirds and polar bears and sightings from the ship are not uncommon. To learn more about this exceptional vessel, request a copy of the [Ship Fact Sheet](#) containing detailed specifications and additional information.

BEFORE YOU BOOK – IMPORTANT VOYAGE DETAILS

COMPREHENSIVE PRE-VOYAGE INFORMATION

Upon receipt of your deposit and booking forms, a detailed booklet will be sent to you providing additional information to help you prepare for your voyage. This resource is full of useful facts and covers practicalities such as suggested clothing, life on board the ship, wildlife, geography and history as well as details about the activities available throughout your voyage. Information regarding passports and visas, budgeting, as well as travel insurance requirements are also found in this helpful document.

TRAVEL INSURANCE

On all One Ocean Expeditions' voyages, you must have comprehensive travel insurance. Your booking agent can recommend a policy designed to cover participants on these voyages. Your policy must provide coverage for your medical costs in case of hospitalization, emergency travel and repatriation.

Please check the terms of your policy carefully, particularly with regard to limits of cover. Also ensure you are familiar with the procedure for making claims. Once you have paid your deposit or full payment, certain fees will apply if you have to cancel your holiday (see the cancellation provisions in our booking terms and conditions). For this reason you should take out travel insurance at the time of paying your deposit, which should then protect you in such a situation. You will be required to send us travel insurance policy details prior to your voyage.

PASSPORTS AND VISAS

Most nationalities do not require a visa to visit Svalbard, which is territory of Norway and falls within the European Union. We advise you to check visa requirements with your travel agent or a Norwegian consular authority well before travelling. You will need a valid passport with you throughout the duration of the journey. Our ship departs from Longyearbyen, the principal settlement in Svalbard, located in Norway. Most people will fly into Oslo, the capital of Norway, where they will clear Customs and Immigration formalities, then fly north to Longyearbyen from where our voyages depart.

SEA KAYAKING

The sea kayaking program is directed at any passenger with an adventurous spirit and some prior paddling experience. This option **MUST** be reserved at the time of booking and attracts an additional charge of \$US695 per participant. You can not book sea kayaking on board the ship. You will need to complete a special questionnaire outlining your previous kayaking experience. Ask your agent, or our office for a copy of this document if you are interested in joining the sea kayaking program.

FAMILY FRIENDLY

The polar regions are fascinating places for young and enquiring minds. These voyages are family friendly and we offer special rates for children and youth (up to 21 years of age at time of travel) when travelling with parents or a relative. Several voyages are specifically geared towards families. For children younger than 12 years of age at the time of travel, please contact your booking agent, or our office to discuss the options.

THE ONE CLUB – EXPEDITION ALUMNI

Come as a passenger, leave as a friend. Once you have experienced one voyage with us, it's likely you will want to experience another. Your commitment to travel with us, is rewarded with our commitment to you, our valued guest. As members of the One Club Expedition Alumni, your loyalty is rewarded with a range of great travel benefits when you return for your next voyage — no matter the destination. Ask your booking agent for details.

IMPORTANT: The information provided here is given in good faith and has been compiled with all reasonable care. However, some of the information may become out of date. Please keep this in mind and check with us if you want to be sure about anything. The document was correct at time of printing. If you have any queries, please contact your voyage booking agent or our office. We are here to help you.

The 'Clean Up Svalbard' initiative

This remote group of islands lies in the middle of the prevailing Atlantic Gulf Stream current. This oceanic current originates in the Caribbean and travels up the western Atlantic Ocean. It acts as a 'conveyor belt' bringing large amounts of pollution, including plastic bottles and abandoned fishing nets to shores of Svalbard. Every time we go ashore, we assist the local government in collection and disposing of this refuse.

World Leading - the World Over

For several years One Ocean Expeditions and the Royal Canadian Geographical Society have maintained a collaborative relationship grounded in geographical education, exploration, science, social and economic community development, Canadian national identity and experiential travel. We are proud to be the exclusive marine travel partner of the Royal Canadian Geographical Society and affiliates.

The right team = exceptional service

You will come to appreciate the dedication of our expedition team when onboard the ship. The highest staff to guest ratio in the industry (1:4) allows you to experience the broadest range of activities possible, catering to all interests and abilities. We are committed to providing exceptional service and are renowned for our flexible, yet professional approach and an ability to 'make things happen'.

INTERESTED IN THIS EXPERIENCE?

When choosing to travel with One Ocean Expeditions we ensure your experience from start to finish is straight forward and well organized.

Start by customizing your journey and mapping out the trip ahead.

If this sounds like the right trip for you, please discuss your ideas and plans with your preferred booking agent. They will reserve a cabin for you on your chosen voyage. This provides time to book flights to the embarkation points of this voyage and to plan other pre or post voyage travel requirements. Please remember that you will require comprehensive travel insurance to join our voyages. This is best arranged at the time of booking. Following confirmation of your reservation, you will need to complete a detailed **One Ocean Expeditions Booking Package** plus other pre voyage documentation to accompany your deposit. At this point your voyage of discovery is underway.

Take advantage of our experience, which spans decades of expedition travel in the Polar Regions. Should you have any questions, we are here to help at any time.
